DETAILED ACTION

Status of the Application

Claims 25-34 are pending.

Applicant's submission of a preliminary amendment in a communication filed on 11/26/2003 canceling claims 1-24 and adding claims 25-34 is acknowledged.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 25-32, drawn to a polynucleotide encoding the polypeptide of SEQ ID NO: 18 or the polynucleotide of SEQ ID NO: 17, a vector, a host cell and a method for transforming a host cell, classified in class 435, subclass 191.
 - II. Claims 33-34, drawn to a plant or a seed comprising a polynucleotide encoding the polypeptide of SEQ ID NO: 18 or the polynucleotide of SEQ ID NO: 17, classified in class 800, subclass 295.

The inventions are distinct, each from the other because of the following reasons:

2. Groups I and II each comprise a chemically unrelated structure capable of separate manufacture, use, and effect. The DNA in Group I comprises a nucleic acid sequence and the transgenic plant in Group II is a multicellular organism. The DNA has other uses besides being introduced in the transgenic plant of Group II, such as a hybridization probe or in gene therapy. The transgenic plant of Group II can have other uses such as to produce specific compounds which are naturally found in such plant and/or fruit, if it is a fruit-bearing plant, besides expressing the DNA of Group I.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1652

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement can be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Certain papers related to this application may be submitted to Art Unit 1652 by facsimile transmission. The FAX number is (703) 872-9306. The faxing of such papers must conform with the notices published in the Official Gazette, 1156 OG 61 (November 16, 1993) and 1157 OG 94 (December 28, 1993) (see 37 CFR 1.6(d)). NOTE: If Applicant submits a paper by FAX, the original copy should be retained by Applicant or Applicant's representative. NO DUPLICATE COPIES SHOULD BE SUBMITTED, so as to avoid the processing of duplicate papers in the Office.

7. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PMR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Delia M. Ramirez whose telephone number is (571) 272-0938. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Ponnathapura Achutamurthy can be reached on (571) 272-0928. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1234.
